Critical Accounting Policies and Estimates

The Company's significant accounting policies can be read in Note 3 to the Company's annual audited consolidated financial statements as at and for the year ended September 30, 2020.

Description of Business and Overall Performance

The Company was incorporated on September 25, 1985 under the laws of British Columbia, Canada and is a junior natural resource company. The common shares of the Company are listed on the TSXV under the symbol NOC.H.

On August 20, 2020, the Company completed its reactivation from the NEX board of the TSX Venture Exchange ("TSXV") to Tier 2 of the TSXV and the trading of the Company's common shares commenced on the TSXV under the trading symbol "NOC" on August 24, 2020.

The address of the Company's registered office and principal place of business is the 890, 1140 West Pender Street, Vancouver, British Columbia, Canada V7Y 1B3.

The Company is an exploration stage company with no revenues from mineral producing operations. Activities include acquiring mineral exploration properties and conducting exploration programs. The mineral exploration business is considered risky and most exploration projects will not result in producing mines. The Company may offer an opportunity to other mining companies to acquire an interest in a property in return for funding all or part of the exploration and development of a particular property. For the funding of property acquisitions and exploration that the company conducts, the Company depends on the issuance of shares from the treasury to investors. These stock issuances depend on a number of factors including a positive mineral exploration environment, positive stock market conditions, a company's track record and the experience of management.
