Forward-Looking Information

Certain statements contained in the following MD&A constitute forward-looking statements. Such forward-looking statements involve a number of known and unknown risks, uncertainties and other factors which may cause the actual results, performance, or achievements of the Company to be materially different from actual future results and achievements expressed or implied by such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made. Readers are also advised to consider such forward-looking statements while considering the risks set forth below.

Caution Regarding Forward-Looking Statements

Except for statements of historical fact relating to the Company, certain information contained in this MD&A constitutes "forward-looking information" under Canadian securities legislation. Forward-looking information includes, but is not limited to, statements with respect to the potential of the Company's properties; the future price of gold, silver, and copper; the success of exploration activities; cost and timing of future exploration and development; the estimation of mineral reserves and mineral resources; conclusions of economic evaluations; requirements for additional capital; and other statements relating to the financial and business prospects of the Company.

Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", "believes", or variations of such words and phrases. Forward-looking information may also be identified in statements where certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved".

Forward-looking information is based on the reasonable assumptions, estimates, analysis, and opinions of management made in light of its experience and its perception of trends, current conditions, and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made.

Forward-looking information is inherently subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance, or achievements of the Company to be materially different from those expressed or implied by such forward-looking information, including but not limited to risks related to:

- The Company's goal of creating shareholder value by concentrating on the acquisition and development of properties that have the potential to contain economic resources.
- Management's economic outlook regarding future trends.
- The Company's ability to meet its working capital needs at the current level in the short term.
- Expectations with respect to raising capital; and

- Governmental regulation and environmental liability.

Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, other factors could also cause materially different results. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

Critical Accounting Estimates and Changes in Accounting Policies

All material critical accounting estimates and accounting policies are fully disclosed in Note 3 of the Company's annual audited consolidated financial statements for the year ended September 30, 2024.

Description of Business and Overall Performance

Fitzroy Minerals Inc. (the "Company"), formerly known as Norseman Silver Inc., was incorporated on September 25, 1985 under the laws of British Columbia, Canada and is a junior natural resource company. The common shares of the Company are listed on the TSX Venture Exchange (the "TSXV") under the symbol "FTZ". The Company is primarily engaged in the acquisition, exploration, and development of mineral properties. All of the Company's activities to date have been of an exploratory nature.

On February 25, 2020, the TSXV approved the Company's name change from Gem International Resources Inc. to Norseman Capital Ltd. Then, on September 16, 2020, the TSXV approved another name change from Norseman Capital Ltd. to Norseman Silver Inc. On January 26, 2024, the TSXV approved the Company's name change from Norseman Silver Inc. to Fitzroy Minerals Inc.

The head office and principal address of the Company are located at Suite 2250, 1055 West Hastings Street, Vancouver, British Columbia, V6E 2E9. The registered and records office are located at Suite 1400, 1050 West Pender Street, Vancouver, British Columbia, V6E 3S7.

The Company is an exploration stage company with no revenues from mineral-producing operations. Activities include acquiring mineral exploration properties and conducting exploration programs. The mineral exploration business is considered risky and most exploration projects will not result in producing mines. The Company may offer an opportunity to other mining companies to acquire an interest in a property in return for funding all or part of the exploration and development of a particular property. For the funding of property acquisitions and exploration that the Company conducts, the Company depends on the issuance of shares from the treasury to investors. These stock issuances depend on a number of factors including a positive mineral exploration environment, positive stock market conditions, a Company's track record and the experience of management.

Activities

Most of the costs incurred have been incurred in reorganizing the capital of the Company, arranging the financing, and examining acquisitions of mining resources. During the period ended December 31, 2024, the Company sought opportunities to acquire mineral exploration properties and conduct exploration programs.

The Company does not currently have any proposed transactions approved by the Board of Directors. All current transactions are fully disclosed in the condensed interim consolidated financial statements for the period ended December 31, 2024.

Financial Instruments and Risk Management

The Company's financial instruments include cash and cash equivalents and accounts payable and accrued liabilities. The carrying values of these financial instruments approximate their fair value due to their short-term maturity. Cash and cash equivalents is the only financial asset that is measured at fair value subsequent to initial recognition, which is measured based on level 1 input of the fair value hierarchy.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

a) Credit Risk

Credit risk is the risk of loss associated with a counter party's inability to fulfill its payment obligations. The Company's cash and cash equivalents is held in a major Canadian financial institution which is considered to have high credibility. Management believes that the Company has no significant credit risk.

b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting its financial obligations associated with its financial liabilities as they fall due. The Company's objective is to ensure that there are sufficient committed financial resources to meet its short-term business requirements for a minimum of twelve

months. The Company has a planning and budgeting process in place to determine the funds required to support its ongoing operations and capital expenditures.

As of December 31, 2024, the Company has sufficient cash and cash equivalents on hand to meet current liabilities and its expected administrative requirements for the coming year. The Company had cash and cash equivalents and total liabilities as follows:

		<u>December 31, 2024</u>	<u>September 30, 2024</u>
Cash and cash equivalents	\$	2,746,831	\$ 1,630,738
Liabilities	\$	145,005	\$ 327,927

To execute its planned exploration program for the next twelve months, the Company will need to raise additional funds through the issuance of equity or debt instruments or the sale of assets. The Company ensures that sufficient funds are raised from private placements to meet its operating requirements, after taking into account existing cash and cash equivalents, and expected exercise of stock options and share purchase warrants.

c) **Market Risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency, and other price risks.

i. **Interest Rate Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has a cash balance and periodically short-term investments. Due to the short-term nature of these financial instruments, management believes that risks related to interest rates are not significant to the Company at this time.

ii. **Foreign Currency Risk**

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to minimal foreign currency risk at this time.

Events After the Reporting Period

On February 19, 2025, the Company issued 100,000 common shares for proceeds of \$12,000 pursuant to the exercise of stock options.
